Congratulations on receiving the NCPA Graduation Honor Cord. The leadership of your student chapter has nominated you for this distinction. Please know that peer recognition is one of the greatest compliments anyone can receive. The National Community Pharmacists Association commends your hard work and dedication to your chapter and community pharmacy practice.

As you know, pharmacists who practice in independent community pharmacies are a vital link in our health care system. Now more than ever, community pharmacists have a profound impact on their patients’ health by increasing access to services such as health screenings, chronic disease management, medication reconciliation, adherence programs, immunization, home infusion, counseling, and of course, prescription drugs.

The NCPA Gradation Honor Cord is NCPA’s way of thanking you for your dedication to NCPA and leadership within NCPA during your time in pharmacy school. We know that pharmacy school in and of itself is not an easy journey; so your commitment to NCPA in addition to the challenges of school are very much appreciated. The cords are our way of thanking you for standing out amongst your peers with your passion and dedication to NCPA, and your NCPA student chapter.

You are already on the path to a successful career as a pharmacist. As a former independent pharmacy owner, I am passionate about helping the next generation of pharmacy owners. Please let me know if NCPA can help you become a pharmacy owner now, or in the future. You can reach me by email at diana.courtney@ncpanet.org, or by phone 703.600.1171. And once again, congratulations!

Kindest regards,

Diana Courtney, R.Ph.
