CPESN networks engage plan sponsors to contract for enhanced pharmacy services. These collaborative relationships provide new revenue opportunities for pharmacies. The future of local pharmacy practice in America starts with CPESN networks. For more information, visit www.cpesn.com/pharmacies. ■

CPESN USA is a clinically integrated nationwide organization of pharmacy networks developed to advance community-based pharmacy practice in America. Through clinical integration, pharmacies in CPESN networks can engage with each other to improve the quality of care provided to patients and the value offered to medical-side payers (bypassing PBMs) through enhanced services and lower costs.
