

Congratulations to the 2022 Flip the Pharmacy award winners

Flip the Pharmacy was launched in June 2019 when the Community Pharmacy Foundation and CPESN® USA announced a five-year partnership to change community-based pharmacy practice. It is a practice transformation initiative aiming to “flip” community-based pharmacies beyond point-in-time, prescription-level care processes and toward longitudinal, patient-level care processes through hands-on coaching. The initiative focuses on identifying and adopting best practices for workflows that promote delivery of clinical services. More than 1,400 pharmacies that are part of Flip the Pharmacy have been directly affected over the past three-plus years. Learn more at flipthepharmacy.com.

CPESN USA is a clinically integrated nationwide organization of pharmacy networks developed to advance community-based pharmacy practice in America. Through clinical integration, pharmacies in CPESN networks can engage with each other to improve the quality of care provided to patients and the value offered to medical-side payers (bypassing PBMs) through enhanced services and lower costs.
