Title

Health care coverage: out-of-pocket expenses.

Introduction Date: 2023-02-14

Description

AB 874, as introduced, Weber. Health care coverage: out-of-pocket expenses. Existing law generally prohibits a person who manufactures a prescription drug from offering in California any discount, repayment, product voucher, or other reduction in an individual's out-of-pocket expenses associated with the individual's health insurance, health care service plan, or other health coverage, including, but not limited to, a copayment, coinsurance, or deductible, for any prescription drug if a lower cost generic drug is covered under the individual's health insurance, health care service plan, or other health coverage on a lower cost-sharing tier that is designated as therapeutically equivalent to the prescription drug manufactured by that person or if the active ingredients of the drug are contained in products regulated by the federal Food and Drug Administration, are available without prescription at a lower cost, and are not otherwise contraindicated for the condition for which the prescription drug is approved. Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care, and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. This bill would require a health care service plan, health insurance policy, other health coverage carrier, or pharmacy benefit manager that administers pharmacy benefits to apply any amounts paid by the enrollee, insured, or another source pursuant to a discount, repayment, product voucher, or other reduction to the enrollee's or insured's out-of-pocket expenses toward the enrollee's or insured's overall contribution to any out-of-pocket maximum, deductible, copayment, coinsurance, or applicable cost-sharing requirement under the enrollee's or insured's health care service plan, health insurance policy, or other health care coverage. The bill would make a willful violation of that requirement by a health care service plan a crime. The bill would limit the application of the section to health care service plans and health insurance policies issued, amended, delivered, or renewed on or after January 1, 2024. Because a willful violation of these requirements by a health care service plan would be a crime, this bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

Title

Pharmacy benefit managers.

Introduction Date: 2023-02-14

Description

AB 913, as amended, Petrie-Norris. Pharmacy benefit managers. Existing law, the Pharmacy Law, establishes the California State Board of Pharmacy within the Department of Consumer Affairs to license and regulate pharmacists. Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and for the regulation of health insurers by the Department of Insurance. Existing law, the Knox-Keene Health Care Service Plan Act of 1975, requires a pharmacy benefit manager under contract with a health care service plan to, among other things, register with the Department of Managed Health Care. This bill would require the California State Board of Pharmacy to license and regulate pharmacy benefit managers that manage the prescription drug coverage provided by a health care service plan or health insurer, except as specified. The bill would set forth various duties of pharmacy benefit managers, including requirements to file a report with the board. The bill would prohibit a pharmacy benefit manager from, among other things, contracting after January 1, 2024, to prohibit or restrict a pharmacy or pharmacist from disclosing to an enrollee or insured health care information that the pharmacy or pharmacist considers appropriate. This bill would require the board to promulgate necessary regulations and to prepare a report to the Legislature on or before August 1, 2025, and on or before each August 1 thereafter, with aggregate data received from pharmacy benefit managers, establish a data retention schedule, and protect proprietary and confidential information, as specified. Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest. This bill would make legislative findings to that effect.

Title

Prescription drug pricing.

Introduction Date: 2023-02-17

Description

SB 786, as amended, Portantino. Prescription drug pricing. Existing federal law requires the United States Secretary of Health and Human Services to enter into an agreement with each manufacturer of covered outpatient drugs to ensure the amount a covered entity is required to pay for those drugs does not exceed the average manufacturer price of the drug under the federal Medicaid program. Existing state law requires a covered entity to dispense only drugs subject to these federal pricing requirements to Medi-Cal beneficiaries. Existing law defines a "covered entity" to include a federally qualified health center and entities receiving specified grants and federal funding. This bill would prohibit a pharmacy benefit manager from discriminating against a covered entity or its pharmacy in connection with dispensing a drug subject to federal pricing requirements or preventing a covered entity from retaining the benefit of discounted pricing for those drugs.

Title

Prescription drugs: cost sharing.

Introduction Date: 2023-02-17

Labels: Rebates Transparency and Disclosure

Description

SB 873, as introduced, Bradford. Prescription drugs: cost sharing. (1) Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care under authority of the Director of the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance under the authority of the Insurance Commissioner. Existing law limits the maximum amount an enrollee or insured may be required to pay at the point of sale for a covered prescription drug to the lesser of the applicable cost-sharing amount or the retail price. This bill, commencing no later than January 1, 2025, would require an enrollee's or insured's defined cost sharing for each prescription drug to be calculated at the point of sale based on a price that is reduced by an amount equal to 90% of all rebates received, or to be received, in connection with the dispensing or administration of the drug. The bill would require a health care service plan or health insurer to, among other things, pass through to each enrollee or insured at the point of sale a good faith estimate of the enrollee's or insured's decrease in cost sharing. The bill would require a health care service plan or health insurer to calculate an enrollee's or insured's defined cost sharing and provide that information to the dispensing pharmacy, as specified. The bill would require the department and the commissioner to submit an annual report on the impact of these provisions to the appropriate policy committees of the Legislature, as specified. The bill would make these provisions inoperative on January 1, 2027. (2) Existing law requires a health care service plan or health insurer that files certain rate information to report to the appropriate department specified cost information regarding covered prescription drugs, including generic drugs, brand name drugs, and specialty drugs, dispensed as provided. This bill, until January 1, 2027, would require a health care service plan or health insurer to report additional information on the above-described point of sale provision. (3) Because a willful violation of the bill's provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

Title

Prescription Drug Benefits Contract Term Requirements

Introduction Date: 2023-02-14

Labels: PBM enforcement PSAOs
Transparency and Disclosure

Description

For a contract between a pharmacy benefit manager (PBM) or a health insurance carrier (carrier) and a certificate holder or policyholder, the act requires that the amount charged by the PBM or carrier to the certificate holder or policyholder for a prescription drug be equal to or less than the amount paid by the PBM or carrier to the contracted pharmacy for the drug. For group health benefit plans in effect during the 2025 calendar year and each calendar year thereafter, the act creates transparency requirements for PBMs and carriers regarding prescription drug benefits and grants audit authority to the commissioner of insurance (commissioner) for fully insured plans to ensure compliance with the requirements. The commissioner is authorized to promulgate rules to implement the act. A violation of the requirements of the act is a deceptive trade practice in the business of insurance, with regard to fully insured plans. For contracts between a PBM and the department of health care policy and financing (state department) or one of its affiliated managed care organizations offering a prescription benefit plan that is issued on or after January 1, 2025, the act requires the amount charged by the PBM to the state department or managed care organization for a prescription drug dispensed to an enrollee in the Colorado medical assistance program to be equal to or less than the amount paid by the PBM to a pharmacy for the prescription drug dispensed to the enrollee. The act directs the medical services board to adopt rules to implement and ensure compliance with this requirement. APPROVED by Governor May 10, 2023 EFFECTIVE August 7, 2023 NOTE: This act was passed without a safety clause and takes effect 90 days after sine die. (Note: This summary applies to this bill as enacted.)

Title

Enforce Laws Against Pharmacy Benefit Managers

Introduction Date: 2023-03-02

Labels: PBM enforcement

Description

Under current law, pharmacy benefit managers (PBMs) are required to perform certain acts and are prohibited from engaging in certain acts. Specifically, PBMs are prohibited from: Requiring patients to obtain their prescription drugs through mail order; Charging pharmacies fees to adjudicate claims; Requiring pharmacies to obtain accreditations or certifications that are different than what the PBM requires of its affiliated pharmacies; Retroactively reducing a payment made to a pharmacy on a drug claim after the point of sale or reimbursing a pharmacy in an amount that is less than the amount reimbursed to its own affiliated pharmacy for the same pharmacy service; Modifying the prescription drug formulary under a health benefit plan during the plan year; With regard to audits, using specified techniques in calculating a recoupment or penalty, subjecting a pharmacy to recoupment when a clerical error is discovered, and requiring pharmacies to be audited more than once a year; Prohibiting a pharmacy or pharmacist from, or penalizing a pharmacy or pharmacist for, providing information to patients about more affordable, therapeutically equivalent alternatives to a prescribed drug; or Requiring a pharmacy or pharmacist to charge or collect a copayment from an insured patient that exceeds the total charge submitted by the pharmacy for the prescription drug. Additionally, PBMs are required to: Provide pharmacies 7 days' written notice before an audit, conduct an audit by or in consultation with a pharmacist, allow the pharmacy to supplement claims documentation, and establish an appeals process; Provide an insured individual, the insured's health-care provider, or a third party acting on behalf of the insured or provider with up-to-date and real-time cost, benefit, and coverage information under the terms of the insured's health benefit plan; and Provide contracted pharmacies with the list of sources the PBM used in determining maximum allowable cost pricing, update the information every 7 days, allow pharmacies the ability to readily review the information, follow specified requirements when placing a drug on the maximum allowable cost list, and establish an appeals process to resolve disputes. The act specifies that the commissioner of insurance (commissioner) has the power to enforce these prohibitions and requirements and impose penalties on PBMs for failing to comply with these prohibitions and requirements. The commissioner is also authorized to adopt rules as necessary to implement and enforce these prohibitions and requirements. Additionally, the act requires PBMs to register with and pay a registration fee to the commissioner and authorizes the commissioner to deny, suspend, revoke, or refuse to issue, continue, or renew a PBM registration or to ... Title
Calculation Of Contributions To Meet Cost Sharing

Introduction Date: 2023-03-16

Labels: Co-pay accumulator

Description

For health benefit plans issued or renewed on or after January 1, 2025, the act requires a health insurer or pharmacy benefit manager to include in the calculation of a covered person's contributions toward cost-sharing requirements, including any annual limitation on a covered person's out-of-pocket costs, any payments made by or on behalf of the covered person for a prescription drug if: The prescription drug does not have a generic equivalent or, for a biological product, a biosimilar drug or interchangeable biological product; or The prescription drug has a generic equivalent, a biosimilar drug, or an interchangeable biological product, but the covered person is using the brand-name drug after obtaining prior authorization, complying with a step-therapy protocol, or otherwise receiving approval from the carrier or pharmacy benefit manager if those utilization management processes are not otherwise prohibited by law. The commissioner of insurance is authorized to adopt rules necessary to implement the act. The act applies to health benefit plans issued or renewed on or after January 1, 2025. APPROVED by Governor June 5, 2023 EFFECTIVE August 7, 2023 NOTE: This act was passed without a safety clause and takes effect 90 days after sine die. (Note: This summary applies to this bill as enacted.)

Prescription Drug Price

Introduction Date: 2022-12-19

Labels: Transparency and Disclosure

Description

Amends the Illinois Food, Drug and Cosmetic Act. Provides that the amendatory provisions apply to any manufacturer of a prescription drug that is purchased or reimbursed by specified parties. Provides that a manufacturer of a prescription drug with a wholesale acquisition cost of more than \$40 for a course of therapy shall notify specified parties if the increase in the wholesale acquisition cost of the prescription drug is more than 10%, including the proposed increase and cumulative increase. Provides that the notice of price increase shall be provided in writing at least 60 days prior to the planned date of the increase. Provides that no later than 30 days after notification of a price increase or new prescription drug the manufacturer shall report specified additional information to specified parties. Provides that a manufacturer of a prescription drug shall provide written notice if the manufacturer is introducing a new prescription drug to market at a wholesale acquisition cost that exceeds a specified threshold. Provides that failure to provide notice under the amendatory provisions shall result in a civil penalty of \$10,000 per day for every day after the notification period that the manufacturer fails to report the information. Requires the Department of Public Health to conduct an annual public hearing on the aggregate trends in prescription drug pricing. Requires the Department to publish on its website a report detailing findings from the public hearing and a summary of details from reports provided under the amendatory provisions, except for information identified as a trade secret or exempted under the Freedom of Information Act. Provides that the amendatory provisions shall not restrict the legal ability of a pharmaceutical manufacturer to change prices as permitted under federal law.

 Medicaid-Pharmacy Payments

Description
 Amends the Medical Assistance Article of the Illinois Public Aid Code. Provides the no appropriation may be expended to a managed care organization under contract with the Department of Healthcare and Family Services unless the managed care organization, and its pharmacy benefits manager, allows prescription drug benefits to be provided by specialty pharmacies that are certified in the Business Enterprise Program and accredited by at least 2 different accreditation entities for specialty pharmacy services on the same terms and conditions by any willing provider that is qualified for network participation and authorized to dispense prescription drugs. Prescription drug benefits include those that are managed both as a part of the overall healthcare benefits package, medical and pharmacy benefits that are integrated into one package through a managed care organization, and pharmacy benefits that are separately administered or subcontracted through a pharmacy benefits manager. Defines "specialty pharmacy". Effective July 1, 2023.

Ins-Pbm/Information Disclosure

Introduction Date: 2023-02-17

Labels: Transparency and Disclosure

Description

Amends the Pharmacy Benefit Managers Article of the Illinois Insurance Code. Provides that a pharmacy benefit manager shall not prohibit a pharmacist or pharmacy from, or indirectly punish a pharmacist or pharmacy for, making any written or oral statement or otherwise disclosing information to any federal, State, county, or municipal official, including the Director of Insurance or law enforcement, or before any State, county, or municipal committee, body, or proceeding under specified circumstances. Provides that the provisions apply to contracts entered into or renewed on or after July 1, 2023 (rather than July 1, 2022). Replaces everything after the enacting clause. Amends the Pharmacy Benefit Managers Article of the Illinois Insurance Code. Provides that a pharmacy benefit manager may not retaliate against a pharmacist or pharmacy for disclosing information in a court, in an administrative hearing, before a legislative commission or committee, in any other proceeding, or to a government or law enforcement agency, if the pharmacist or pharmacy has reasonable cause to believe that the disclosed information is evidence of a violation of a State or federal law, rule, or regulation. Provides that a pharmacist or pharmacy shall make commercially reasonable efforts to limit the disclosure of confidential and proprietary information. Provides that retaliatory actions against a pharmacy or pharmacist include specified actions. Provides that the provisions apply to contracts entered into or renewed on or after July 1, 2022 (rather than July 1, 2023). Adds a July 1, 2023 effective date.

Description

Amends the Illinois Banking Act. Makes a technical change in a Section concerning the short title. Replaces everything after the enacting clause. Amends the Pharmacy Benefit Managers Article of the Illinois Insurance Code. Provides that when conducting a pharmacy audit, an auditing entity shall comply with specified requirements. Provides that an auditing entity conducting a pharmacy audit may have access to a pharmacy's previous audit report only if the report was prepared by that auditing entity. Provides that information collected during a pharmacy audit shall be confidential by law, except that the auditing entity conducting the pharmacy audit may share the information with the health benefit plan for which a pharmacy audit is being conducted and with any regulatory agencies and law enforcement agencies as required by law. Provides that a pharmacy may not be subject to a chargeback or recoupment for a clerical or recordkeeping error in a required document or record unless the pharmacy benefit manager can provide proof of intent to commit fraud or such error results in actual financial harm to the pharmacy benefit manager, a health plan managed by the pharmacy benefit manager, or a consumer. Provides that a pharmacy shall have the right to file a written appeal of a preliminary and final pharmacy audit report in accordance with the procedures established by the entity conducting the pharmacy audit. Provides that no interest shall accrue for any party during the audit period. Provides that an auditing entity must provide a copy to the plan sponsor of its claims that were included in the audit, and any recouped money shall be returned to the plan sponsor, unless otherwise contractually agreed upon by the plan sponsor and the pharmacy benefit manager. Defines terms.

Title

State health plan; insulin discount program, cost sharing for insulin.

Introduction Date: 2022-01-10

Labels:

Description

State health plan; insulin discount program; health insurance; cost sharing for insulin. Requires the state health plan established by the Department of Human Resource Management to offer an insulin discount program that allows individuals other than state employees to purchase insulin at a discounted, post-rebate price. The bill requires the insulin discount program to (i) allow a participant to purchase insulin at a discounted, post-rebate price; (ii) provide a participant with a card or electronic document that identifies the participant as eligible for the discount; (iii) provide a participant with information about pharmacies that will honor the discount; and (iv) provide a participant with instructions to pursue a reimbursement of the purchase price from the participant's carrier. The bill requires the discount program to charge a price for insulin that allows the program to retain only enough of any rebate for the insulin to make the state risk pool whole for providing discounted insulin to participants.

Title

Health insurance; carrier contracts, carrier provision of certain prescription drug information.

Introduction Date: 2022-01-11

Labels: Transparency and Disclosure

Description

Health insurance; carrier disclosure of certain information. Requires each health insurance carrier, beginning July 1, 2025, to establish and maintain an online process that (i) links directly to e-prescribing systems and electronic health record systems that utilize the National Council for Prescription Drug Programs SCRIPT standard; (ii) can accept electronic prior authorization requests from a provider; (iii) can approve electronic prior authorization requests for which no additional information is needed by the carrier to process the prior authorization request, no clinical review is required, and that meet the carrier's criteria for approval; and (iv) otherwise meets the requirements of the relevant Code of Virginia section. The bill prohibits a carrier from (a) imposing a charge or fee on a participating health care provider for accessing the required online process required or (b) accessing, absent provider consent, provider data via the online process other than for the enrollee. The bill requires participating health care providers, beginning July 1, 2025, to ensure that any e-prescribing system or electronic health record system owned by or contracted for the provider to maintain an enrollee's health record has the ability to access the electronic prior authorization process established by a carrier and real-time cost information data for a covered prescription drug made available by a carrier. The bill provides that a provider may request a waiver of compliance for undue hardship for a period not to exceed 12 months. The bill requires any carrier or its pharmacy benefits manager to provide real-time cost information data to enrollees and contracted providers for a covered prescription drug, including any cost-sharing requirement or prior authorization requirements, and to ensure that the data is accurate. The bill requires that such cost information data is available to the provider in a format that a provider can access and understand such as through the provider's e-prescribing system or electronic health record system for which the carrier or pharmacy benefits manager or its designated subcontractor has adopted that utilizes the National Council for Prescription Drug Programs SCRIPT standard from which the provider makes the request.

Wholesale prescription drug importation program; Sec. of Health and Human Resources to establish.

Introduction Date: 2022-01-11

Labels: Drug Importation

Description

Secretary of Health and Human Resources; wholesale prescription drug importation program. Directs the Secretary of Health and Human Resources (the Secretary) to establish a wholesale prescription drug importation program that complies with the requirements of federal law and to report annually by October 1 to the Governor and the Chairmen of the House Committees on Appropriations and Health, Welfare and Institutions and the Senate Committees on Finance and Appropriations and Education and Health on the wholesale prescription drug importation program. The bill also requires the Secretary to (i) convene a workgroup composed of relevant stakeholders to develop a plan for implementation of the wholesale prescription drug importation program and report the plan to the Governor and the Chairmen of the House Committees on Appropriations and Health, Welfare and Institutions and the Senate Committees on Finance and Appropriations and Education and Health by December 1, 2022, and (ii) seek such federal approvals, waivers, exemptions, or agreements as may be necessary to enable all covered entities enrolled in or eligible for the federal 340B Drug Pricing Program to participate in the wholesale prescription drug importation program to the greatest extent possible without jeopardizing their eligibility for the 340B Drug Pricing Program by July 1, 2023.

Title

Health insurance; retail community pharmacies.

Introduction Date: 2022-01-11

Description

Health insurance; retail community pharmacies. Requires a carrier to administer its health benefit plans in a manner consistent with certain requirements and to include such requirements in its provider contracts addressing the provision of pharmacy benefits management. The bill provides that (i) a covered individual is permitted to fill any mail order-covered prescription, at the covered individual's option, at any mail order pharmacy or network participating retail community pharmacy under certain conditions; (ii) the carrier or pharmacy benefits manager is prohibited from imposing a differential copayment, additional fee, rebate, bonus, or other condition on any covered individual who elects to fill his prescription at an in-network retail community pharmacy that is not similarly imposed on covered individuals electing to fill a prescription from a mail order pharmacy; and (iii) the pharmacy benefits manager is required to expressly disclose to the carrier in the contract if the pharmacy benefits manager retains all or a greater portion of a drug manufacturer's rebate amount or any additional direct or indirect remuneration from any third party for drugs dispensed through the pharmacy benefits manager-owned mail order pharmacy than the pharmacy benefits manager does for drugs dispensed through a retail community pharmacy. The bill also removes the exemption for a self-insured or self-funded employee welfare benefit plan under provisions regulating pharmacy benefits managers.

Title

Health insurance; discrimination prohibited against covered entities and contract pharmacies.

Introduction Date: 2022-01-14

Description

Health insurance; discrimination prohibited against covered entities and contract pharmacies. Prohibits carriers and pharmacy benefits managers from discriminating in the requirements, exclusions, terms, or other conditions imposed on a covered entity or contract pharmacy on the basis that the entity or pharmacy is operating under the 340B Program of the federal Public Health Service Act. Such prohibition does not (i) apply to drugs with an annual estimated per-patient cost exceeding \$250,000 or (ii) prohibit the identification of a 340B reimbursement request. The bill also prohibits a carrier or pharmacy benefits manager from interfering in a covered individual's right to choose a contract pharmacy or covered entity.

Title

Health insurance; carrier contracts, carrier provision of certain prescription drug information.

Introduction Date: 2022-01-11

Description

Health insurance; carrier disclosure of certain information.

Requires each health insurance carrier, beginning July 1, 2025, to establish and maintain an online process that (i) links directly to e-prescribing systems and electronic health record systems that utilize the National Council for Prescription Drug Programs SCRIPT standard; (ii) can accept electronic prior authorization requests from a provider; (iii) can approve electronic prior authorization requests for which no additional information is needed by the carrier to process the prior authorization request, no clinical review is required, and that meet the carrier's criteria for approval; and (iv) otherwise meets the requirements of the relevant Code of Virginia section. The bill prohibits a carrier from (a) imposing a charge or fee on a participating health care provider for accessing the required online process required or (b) accessing, absent provider consent, provider data via the online process other than for the enrollee. The bill requires participating health care providers, beginning July 1, 2025, to ensure that any e-prescribing system or electronic health record system owned by or contracted for the provider to maintain an enrollee's health record has the ability to access the electronic prior authorization process established by a carrier and real-time cost information data for a covered prescription drug made available by a carrier. The bill provides that a provider may request a waiver of compliance for undue hardship for a period not to exceed 12 months. The bill requires any carrier or its pharmacy benefits manager to provide real-time cost information data to enrollees and contracted providers for a covered prescription drug, including any cost-sharing requirement or prior authorization requirements, and to ensure that the data is accurate. The bill requires that such cost information data is available to the provider in a format that a provider can access and understand such as through the provider's e-prescribing system or electronic health record system for which the carrier or pharmacy benefits manager or its designated subcontractor has adopted that utilizes the National Council for Prescription Drug Programs SCRIPT standard from which the provider makes the request. The bill requires the State Corporation Commission's Bureau of Insurance (the Bureau) to, in coordination with the Secretary of Health and Human Resources, establish a work group to evaluate and make recommendations to modify the process for prior authorization for drug benefits in order to maximize efficiency and minimize delays that include a single standardized process and any recommendations for necessary statutory or regulatory changes. The bill requires the work group to include relevant stakeholders,...

Health insurance; ensuring fairness in cost-sharing.

Description
Health insurance; ensuring fairness in cost-sharing. Amends provisions related to rebates provided by carriers and health benefit plans to health plan enrollees by defining defined cost-sharing, price protection rebates, and pharmacy benefits management services. The bill requires that an enrollee's defined cost-sharing for each prescription drug shall be calculated at the point of sale based on a price that is reduced by an amount equal to at least 80 percent of all rebates received or expected to be received in connection with the dispensing or administration of the prescription drug.
