**Title**  
Health care coverage: out-of-pocket expenses.

**Introduction Date:** 2023-02-14

**Description**  
AB 874, as introduced, Weber. Health care coverage: out-of-pocket expenses. Existing law generally prohibits a person who manufactures a prescription drug from offering in California any discount, repayment, product voucher, or other reduction in an individual's out-of-pocket expenses associated with the individual's health insurance, health care service plan, or other health coverage, including, but not limited to, a copayment, coinsurance, or deductible, for any prescription drug if a lower cost generic drug is covered under the individual's health insurance, health care service plan, or other health coverage on a lower cost-sharing tier that is designated as therapeutically equivalent to the prescription drug manufactured by that person or if the active ingredients of the drug are contained in products regulated by the federal Food and Drug Administration, are available without prescription at a lower cost, and are not otherwise contraindicated for the condition for which the prescription drug is approved. Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care, and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. This bill would require a health care service plan, health insurance policy, other health coverage carrier, or pharmacy benefit manager that administers pharmacy benefits to apply any amounts paid by the enrollee, insured, or another source pursuant to a discount, repayment, product voucher, or other reduction to the enrollee's or insured's out-of-pocket expenses toward the enrollee's or insured's overall contribution to any out-of-pocket maximum, deductible, copayment, coinsurance, or applicable cost-sharing requirement under the enrollee's or insured's health care service plan, health insurance policy, or other health care coverage. The bill would make a willful violation of that requirement by a health care service plan a crime. The bill would limit the application of the section to health care service plans and health insurance policies issued, amended, delivered, or renewed on or after January 1, 2024. Because a willful violation of these requirements by a health care service plan would be a crime, this bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

Pharmacy benefit managers.

**Introduction Date:** 2023-02-14**Description**

AB 913, as amended, Petrie-Norris. Pharmacy benefit managers. Existing law, the Pharmacy Law, establishes the California State Board of Pharmacy within the Department of Consumer Affairs to license and regulate pharmacists. Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and for the regulation of health insurers by the Department of Insurance. Existing law, the Knox-Keene Health Care Service Plan Act of 1975, requires a pharmacy benefit manager under contract with a health care service plan to, among other things, register with the Department of Managed Health Care. This bill would require the California State Board of Pharmacy to license and regulate pharmacy benefit managers that manage the prescription drug coverage provided by a health care service plan or health insurer, except as specified. The bill would set forth various duties of pharmacy benefit managers, including requirements to file a report with the board. The bill would prohibit a pharmacy benefit manager from, among other things, contracting after January 1, 2024, to prohibit or restrict a pharmacy or pharmacist from disclosing to an enrollee or insured health care information that the pharmacy or pharmacist considers appropriate. This bill would require the board to promulgate necessary regulations and to prepare a report to the Legislature on or before August 1, 2025, and on or before each August 1 thereafter, with aggregate data received from pharmacy benefit managers, establish a data retention schedule, and protect proprietary and confidential information, as specified. Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest. This bill would make legislative findings to that effect.

**Title**

Prescription drug pricing.

**Introduction Date:** 2023-02-17

**Description**

SB 786, Portantino. Prescription drug pricing. Existing federal law requires the United States Secretary of Health and Human Services to enter into an agreement with each manufacturer of covered outpatient drugs to ensure the amount a covered entity is required to pay for those drugs does not exceed the average manufacturer price of the drug under the federal Medicaid program. Existing state law requires a covered entity to dispense only drugs subject to these federal pricing requirements to Medi-Cal beneficiaries. Existing law defines a "covered entity" to include a federally qualified health center and entities receiving specified grants and federal funding. This bill would prohibit a pharmacy benefit manager from discriminating against a covered entity or its pharmacy in connection with dispensing a drug subject to federal pricing requirements or preventing a covered entity from retaining the benefit of discounted pricing for those drugs.

**Description**

SB 873, as introduced, Bradford. Prescription drugs: cost sharing. (1) Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care under authority of the Director of the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance under the authority of the Insurance Commissioner. Existing law limits the maximum amount an enrollee or insured may be required to pay at the point of sale for a covered prescription drug to the lesser of the applicable cost-sharing amount or the retail price. This bill, commencing no later than January 1, 2025, would require an enrollee's or insured's defined cost sharing for each prescription drug to be calculated at the point of sale based on a price that is reduced by an amount equal to 90% of all rebates received, or to be received, in connection with the dispensing or administration of the drug. The bill would require a health care service plan or health insurer to, among other things, pass through to each enrollee or insured at the point of sale a good faith estimate of the enrollee's or insured's decrease in cost sharing. The bill would require a health care service plan or health insurer to calculate an enrollee's or insured's defined cost sharing and provide that information to the dispensing pharmacy, as specified. The bill would require the department and the commissioner to submit an annual report on the impact of these provisions to the appropriate policy committees of the Legislature, as specified. The bill would make these provisions inoperative on January 1, 2027. (2) Existing law requires a health care service plan or health insurer that files certain rate information to report to the appropriate department specified cost information regarding covered prescription drugs, including generic drugs, brand name drugs, and specialty drugs, dispensed as provided. This bill, until January 1, 2027, would require a health care service plan or health insurer to report additional information on the above-described point of sale provision. (3) Because a willful violation of the bill's provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

**Labels:** PBM enforcement Transparency and Disclosure

**Description**

Requires a hospital, physician group practice, insurer, third party administrator, and pharmacy benefit manager to file with the Indiana department of health (department) a report that includes information regarding each person or entity that has an ownership interest, in whole or in part, or a controlling interest in the hospital, physician group practice, insurer, third party administrator, or pharmacy benefit manager. Requires the department to publicly post a searchable consolidated document on the department's website that contains the information. Sets forth penalties for a violation of the reporting requirements. Requires the department to submit an annual report of violations of the reporting requirements to certain members of the general assembly. Allows a contract holder to request an audit of a pharmacy benefit manager up to one time each quarter. Prohibits a third party administrator, health plan, or pharmacy benefit manager from charging a fee if the plan sponsor opts out of an additional offered service. Requires a contract with a third party administrator, pharmacy benefit manager, or prepaid health care delivery plan to provide that the plan sponsor has ownership of the claims data. Allows a plan sponsor that contracts with a third party administrator, the office of the secretary of family and social services that contracts with a managed care organization to provide services to a Medicaid recipient, or the state personnel department that contracts with a prepaid health care delivery plan to provide group health coverage for state employees to request an audit up to one time each quarter. Provides that a violation of the requirements concerning audits of a third party administrator, managed care organization, or prepaid health care delivery plan is an unfair or deceptive act or practice in the business of insurance and allows the department of insurance to adopt rules to set forth fines for a violation.

**Introduction Date:** 2024-01-10**Description**

Health insurance; cost-sharing; pharmacy benefits managers' compensation and duties: civil penalty. Amends provisions related to rebates provided by carriers and health benefit plans to health plan enrollees by defining "defined cost-sharing," "price protection rebates," and "pharmacy benefits management services." The bill requires that an enrollee's defined cost-sharing for each prescription drug be calculated at the point of sale based on a price that is reduced by an amount equal to at least 80 percent of all rebates received or expected to be received in connection with the dispensing or administration of the prescription drug.
