

Attention Independent Pharmacies

Important FDA Update on DSCSA Requirements for Small Dispensers

The FDA is granting exemptions from certain requirements of Section 582 of the FD&C Act to small dispensers (pharmacies) until **November 27, 2026**.

What This Means for You:

- **Extra Time to Prepare:** Small dispensers now have additional time to stabilize their operations and fully implement the enhanced drug distribution security requirements of DSCSA.

Who Qualifies as a Small Dispenser?

- Your pharmacy qualifies if, as of **November 27, 2024**, your company has **25 or fewer full-time employees** who are licensed pharmacists or qualified pharmacy technicians.

What Is Needed if You Qualify for an Extension?

- You still need to have the PRS DrugSupplyTrack processes in place to be compliant.

! NOW ENFORCEABLE !
